

Dear Colleague,

FSS/ENF/17/011 - Local Authority Enforcement Monitoring System (LAEMS) returns 2016-17 – Update 2

Thank you to all local authorities that have uploaded and signed off your annual data on food hygiene and standards activity onto the Local Authority Enforcement Monitoring System (LAEMS), the deadline for which was 31 May 2017. 97% of Scottish Local Authorities uploaded and signed off data for hygiene and standards by the deadline and 100% of Scottish Local Authorities have now subsequently uploaded and signed off data for hygiene and standards.

As advised in **FSS/ENF/17/011** FSA will be publishing the data received by the original deadline on the FSA's website shortly. This first set of data will include a note to explain which Local Authorities' data is missing. Data subsequently received up to the end of June will then be included in an update to this data.

As always, if you have any specific technical queries that are not covered in the comprehensive LAEMS user guidance, please email the LAEMS team (laems@foodstandards.gsi.gov.uk).

Kind Regards

Marion
