

Covid-19 Consumer Tracker

Wave 3: July 2020

COVID-19 Consumer Tracker

Methodology

The Food Standards Scotland (FSS) commissioned Ipsos MORI to track behaviour and attitudes toward food purchasing and consumption during the COVID-19 pandemic.

This is the third wave of a monthly tracker which ran for three months from May to July 2020.

During this wave, Ipsos MORI interviewed a representative sample of **495 adults, aged 16-75 living in Scotland**. Interviews were conducted online via i:Omnibus from: **10-14 July 2020**.

Findings for subgroups are included to highlight similarities and differences in responses for key questions. Where subgroups are reported on, the base size is provided in the footnote. The data is weighted to best reflect the demographic profile of the adult population sampled.

Where results do not sum to 100, this may be due to computer rounding. Where appropriate the 'not applicable' and 'don't know' responses are not shown.

Levels of concern about food availability and affordability

To what extent, if at all, are you worried about...?

May not add to 100% as the "Don't know and Prefer not to answer" options are not charted

Base: 495 Online Scottish adults 16-75, 10-14 July 2020

Levels of concern about food affordability over time

To what extent, if at all, are you worried that you/your household will not be able to afford food in the next month?

Base: Online Scottish adults 16-75, 8-12 May (508); 12-15 June (503); 10-14 July (495)

Ipsos MORI

Levels of concern about food availability over time

To what extent, if at all, are you worried about there not being enough food available for you/your household to buy in the next month?

Base: Online Scottish adults 16-75, 8-12 May (508); 12-15 June (503); 10-14 July (495)

Concern about food affordability by household composition

To what extent, if at all, are you worried you/your household will not be able to afford food in the next month?

May not add to 100% as the "Don't know and Prefer not to answer" options are not charted

Base: 495 Online Scottish adults 16-75, With children (115), Without children (380), 10-14 July 2020

▲ = significantly higher than the total
▼ = significantly lower than the total
