2 Introduction, SND Portal and Sign-in

SND is a central repository developed within FSS. It collects Food Enforcement Activity from each of the 32 Scottish Local Authorities via an API with each LA's Management Information System.

The portal is accessed via the following URL: <https://portal.fss-snd.scot>

The screenshot shows the login interface for the Scottish National Database. At the top left, there is a dark purple header with the Food Standards Scotland logo and a 'Home' link. The main content area is white and contains the following elements:

- Text: "Welcome to the Scottish National Database"
- Text: "Please login"
- Input field for email: "@ you@example.com"
- Input field for password: "Password"
- Checkbox: "Remember me?"
- Buttons: "Login" (green) and "Forgot Your Password?" (blue)

To the right of the login form is a large dark purple square containing the Food Standards Scotland logo in white.

At the bottom of the page, there is a dark purple footer with the Food Standards Scotland logo on the left and the text: "SND Portal by Food Standards Scotland More information is available [here](#) For technical queries and support, [click here](#)."

User Administration in SND is managed within each Local Authority and within FSS.

Please note that screen shots of SND within this document are often taken from our Test SND Portal which uses turquoise header and footers. The Live SND portal has dark purple headers and footers throughout.

3 SND Local Authority Home or Landing Page

The Home or Landing Page for a Local Authority appears as follows, with relevant data for the Local Authority:

Expanding the sections on this page shows relevant information that has been collected from the LA MIS, for example:

Head of Food Services:

Head of Food Services ▼

If there are errors in the information shown then these must be corrected within the LA MIS. Corrections will be copied through to SND in the next data submission.

4 Applying Mappings

Data mappings can be created and modified by SND Administrators in each Local Authority:

The Mapping Function maps data that has arrived from the LA MIS to standard values that are used for national reporting. (If the national values are used within the LA MIS, then there will be no need to apply mappings in SND.)

The following areas require mappings.

Mapping type	Number of mappings required	Number of mappings applied	
Enforcements	0	10	Create/Edit Enforcement Mappings
Complaints	0	0	No mappings required
FoodEstablishments	0	82	Create/Edit FoodEstablishment Mappings
Interventions	0	25	Create/Edit Intervention Mappings
Responsibilities	0	0	No mappings required
Food Hygiene Information Scheme	0	2	Create/Edit Food Hygiene Information Scheme Mappings
Approval Status	0	0	No mappings required
Approval Code	0	0	No mappings required
Approval Category	0	0	No mappings required
Approval Associated Activity	0	0	No mappings required
Approval Remark	0	0	No mappings required
Approval Species	0	0	No mappings required

Click on Create / Edit boxes to apply any required mappings.

New Mappings and Mappings that have changed for SND 2.0 are listed below.

4.1 Enforcement Mappings:

5 Submissions

The Submissions view for a Local Authority shows the status of the last 10 data submissions received in SND for that Local Authority.

Created At (UTC)	Api Version	Status	Size (kb)	Seconds to process
07 Mar 2019 03:59	3.1	processed	242	0
02 Feb 2018 12:55	1.0	processed	356578	34

Weekly data submissions are received from the LA MIS. Successful data submissions have a status of ‘processed’. The current Api Version is 3.1. Any submissions with an Api version of 1.0 were received before MIS upgrades for FLRS.

Clicking the Submission Details box at the right hand side of a submission will show a summary of the records received in that particular submission:

Local Authority Code	Local Authority Name	Created At
000	Demo Council	3/7/2019 3:59:11 PM

Imports	0	Interventions	0
Exports	0	Food Hygiene Information Scheme	0
High Risk Foods and Processes	0	Food Hygiene Risk Ratings	0
Food Law Rating	0	Food Standards Risk Ratings	0
		ApprovalV2s	0

This is an empty submission as all of the record counts are zero.

If records have been submitted a 'View' option will be available to allow scrutiny of the actual records submitted from the LA MIS:
