

Establishment Details			
Establishment Name	SERIOUSLY GOOD BUTCHERY LTD		
Approval Number	1200		
Approved Activities / Audited Operations			
	Activity	Audited	Comments
Game Handling establishment	Large Wild Game (e.g. wild deer & feral wild boar)	Yes	
Cutting Plant	Domestic Ungulates	Yes	
Cutting Plant	Large Wild Game	Yes	
Cutting Plant	Farmed Game	Yes	
Other Meat Activities	Minced meat establishment	Yes	
Other Meat Activities	Meat Preparations	Yes	
Processing Plant	Meat Products	Yes	
Audit On-Site Visit	24/05/18		

1. Animal Health and Identification (Slaughterhouse / Game Handling Establishments)		
Potential spread of animal disease is minimised		Assessment
1.1	Only correctly identified animals / carcasses with all relevant documentation (passports, FCI, Trained hunters' declaration) are accepted for slaughter or processing (at Game Handling Establishments)	Minor
1.2	FBO takes appropriate action over fitness of animals to be accepted for slaughter based on FCI information and own pre-slaughter checks	N/A
1.3	Animal health restrictions in disease control area are implemented by slaughterhouse operator	N/A
1.4	Slaughterhouse operators transporting poultry/lagomorphs ensure suitable crates/modules are used. All equipment used for collecting/delivery are cleaned, washed and disinfected immediately after use and if necessary before re-use	N/A

3. Hygienic Production		
Slaughterhouse / Game Handling Establishment Hygiene		
FBO controls during processing		Assessment
3.1	Animals to be slaughtered / wild game are clean and/or FBO has HACCP based procedures in place to avoid contamination of carcasses from dirty animals	Compliant
3.2	All handling and processes from slaughtering to despatch are done in a way that avoids the contamination of meat and offal entering the food chain.	Compliant
3.3	Any visible contamination removed without delay by trimming or alternative means having an equivalent effect	Compliant
3.4	Where relevant, all edible co-products are handled hygienically and subject to relevant controls (including raw materials intended for further processing)	Compliant
Enabling Post-mortem inspection		Assessment
3.5	Correlation and correct presentation of parts of slaughtered red meat animals required to be inspected. Correct presentation of carcasses and accompanying offal of birds for post-mortem inspection	Compliant
FBO post-processing controls		Assessment
3.6	Carcass and offal are chilled, stored and dispatched within the required temperatures and in a manner that avoids cross-contamination	Compliant
3.7	All products have Health Mark or Identification Mark as appropriate	Compliant

3.8	FBO traceability system allows identification of any person from whom they have been supplied with food products, and businesses to which their products have been supplied	Compliant
3.9	All statutory microbiological testing is carried out and appropriate action on receipt of results is being taken.	Compliant
3.9i	All statutory Trichinella sampling and testing is carried out and appropriate action on receipt of results is being taken.	Compliant
Cutting Plant / Minced Meat / Meat Preparations / Meat Products Hygiene / MSM		
Processing compliance with (EC) 853/2004 Annex III. Sections I, II, III, IV, V, VI		Assessment
3.10	Legal temperature controls are maintained throughout the process from intake to dispatch for all products and rooms	Compliant
3.11	Controls ensure that risk of cross contamination is minimised, prevented or reduced to acceptable levels during operation and appropriate action taken should contamination occur	Minor
3.12	Only permitted raw materials, including water and other ingredients, are used for minced meat, meat preparations, MSM and meat products	Compliant
3.13	All statutory microbiological testing is carried out and appropriate action on receipt of results is being taken.	Compliant

3.14	Wrapping and Packaging materials not to be a source of contamination, stored and handled in such a way that product contamination is avoided	Compliant
3.15	Re-usable wrapping and packaging materials for foodstuffs are easy to clean and disinfect and are clean at point of use	Compliant
3.16	Separation of exposed from packaged product	Minor
3.17	Identification marking complies with the legislation	Compliant
3.18	Labelling of products that require cooking before eating complies with the legislation	Compliant
3.19	FBO traceability system allows identification of any person from whom they have been supplied with food products, and businesses to which their products have been supplied	Major
RTE Products		Assessment
3.20	Controls provide assurance that critical limits are achieved: pasteurisation and cooling rates for RTE products	Compliant
3.21	Adequate separation of RTE and non RTE products	Compliant

4 Environmental Hygiene / Good Hygiene practices		
Structure:		Assessment
4.1	Design and layout permit good food hygiene practice and protect against contamination between and during operations	Minor
4.2	Room size and number sufficient for different processes, species and throughput	Compliant
Water supply: potability water supply is assured		Assessment
4.3	FBO has operating procedures in place to ensure there is an adequate supply of potable water.	Compliant
4.4	The implementation of the operating procedures is effective and supported by records.	Minor
Maintenance: arrangements protect food from contamination		Assessment
4.5	FBO has operating procedures in place to ensure their premises, fittings and equipment are maintained in good repair and condition.	Compliant
4.6	The implementation of the operating procedures is effective and supported by records.	Minor
Cleaning: arrangements protect food from contamination		Assessment
4.7	FBO has operating procedures in place to ensure their premises, fittings and equipment are kept clean and when necessary disinfected	Compliant
4.8	The implementation of the operating procedures is effective and supported by records.	Minor

Pest Control: arrangements protect food from contamination		Assessment
4.9	FBO has operating procedures in place to control pests	Compliant
4.10	The implementation of the operating procedures is effective and supported by records.	Compliant
Staff training/instruction and supervision		Assessment
4.11	FBO has operating procedures in place to supervise, instruct and/or train staff in food hygiene and work procedures commensurate to their work activity	Compliant
4.12	FBO has operating procedures in place to train staff responsible for the development and maintenance of HACCP - based procedures	Compliant
4.13	The implementation of the operating procedures is effective and supported by records.	Compliant
Health arrangements		Assessment
4.14	FBO has operating procedures in place to ensure that no person suffering from or being a carrier of a disease likely to be transmitted through food is permitted to handle or enter a food-handling area	Compliant
4.15	The implementation of the operating procedures is effective and supported by records.	Compliant

5 Food Safety Systems Based on HACCP Principles (including exception reporting when using the meat diary in small establishments)		
		Assessment
5.1	Documented HACCP based procedures cover all foods supplied for human consumption. Specific slaughterhouse HACCP based procedure requirements are also included	Compliant
Principle 1 - identify any hazards that must be prevented, eliminated or reduced to acceptable levels		Assessment
5.2	HACCP team and description of product(s) provided	Compliant
5.3	Flow diagrams (description of manufacturing process) available	Compliant
5.4	All hazards that are essential to be controlled by HACCP based procedures have been identified (Physical, Microbiological & Chemical)	Compliant
Principle 2 - Identify the Critical Control Points (CCPs) at the step or steps at which control is essential to prevent or eliminate a hazard or to reduce it to acceptable levels		Assessment
5.5	Correct identification of CCPs or control points at the step or steps at which control is essential for food safety	Compliant
Principle 3 - Establish critical limits at CCPs (or legal limits at CPs) which separate acceptability from unacceptability for the prevention, elimination or reduction of identified hazards		Assessment
5.6	Critical limits set up to reflect legal requirements, and/or to separate acceptability from unacceptability	Compliant

Principle 4 - establish and implement effective monitoring procedures at CCP/CPs		Assessment
5.7	Monitoring procedures at CCPs or control points (who, where, when, how often) correctly established	Minor
5.8	Monitoring procedures are effective and supported by records	Major
Principle 5 - Establish corrective actions when monitoring indicates that a CCP is not under control		Assessment
5.9	Corrective action procedures established, for when monitoring indicates that a CCP or control point is not under control	Compliant
5.10	Corrective actions are effective and supported by records	Compliant
Principle 6 - Establish procedures that are carried out regularly to verify that principles 1 - 5 are working effectively		Assessment
5.11	Validation and verification procedures have been established to regularly demonstrate that the above measures are working effectively	Compliant
5.12	If part of FBOs procedures, arrangements for microbiological sampling and analysis of results are established and implemented	Compliant
5.13	Verification procedures, including microbiological sampling, are effective and supported records	Compliant

Principle 7 - Establish documents and records commensurate with the nature and size of the food business to demonstrate the effective application of principles 1 - 6		Assessment
5.14	Staff procedures for day to day control of food safety hazards are recorded and kept up to date (SOPs / RMOPs etc)	Compliant
5.15	Records are established for keeping note of day to day checks and activities for the HACCP based controls	Compliant
5.16	Management records are established for keeping note of supervisory checks and corrective actions e.g. diary, check sheets etc)	Compliant
Review		Assessment
5.17	HACCP plans are reviewed and if necessary amended in response to changes to Suppliers / products / operations / equipment / law etc or following complaints	Minor

6. Handling of Animal By-Products / waste to protect human and animal health		
		Assessment
6.1	Animal By-Products are removed from food production areas as quickly as possible, avoiding cross contamination	Compliant
6.2	Animal By-Product containers are leak proof, closable, kept in sound condition, cleaned and disinfected as often as necessary. Waste stores are pest proof.	Compliant
6.3	Animal By-Products, including SRM, are correctly identified, segregated and categorised	Minor
6.4	Animal By-Products, including SRM, are correctly stained where necessary	Compliant
6.5	Animal By-Products, including SRM, are dispatched to approved premises with correctly completed commercial documentation	Compliant

7. TSE / SRM Controls		
		Assessment
7.1	FBO ensures meat entering the food chain is free from SRM	Compliant
7.2	Animals requiring BSE testing intended for the food chain are tested for BSE/TSE, and processed as per RMOP	N/A
7.3	Meat for all animals tested for BSE/TSE does not enter the food chain unless tested negative	N/A
7.4	Imported carcasses meet requirements for the removal of SRM	N/A
7.5	Vertebral column from over 30 month cattle is removed and stained	N/A
