Good morning 38(1)b,

Please see attached (**you can find this attachment below in page 5**) the last update we received from the MCA.

Overall, the fuel has been cleared and there is work undertaken to change the temporary seals into permanent steel ones.

Best regards,

Hi 38(1)b. Can I just ask you to please confirm that the fuel etc has been removed and the feed vessel secured for now?

Thanks  
Kind Regards,

Hi 38(1)b,

Thank you for checking that and passing on the information about the cockle bed. I will let the MCA know as they are in direct contact with the operator.

I have attached the latest email update, received today. It looks like they are hoping to pump the fuel from the main fuel tank today and, over the next few days, ensure that all remaining fuel has been removed. Next week, they are then planning to seal the silo's containing the fish feed which will then be left in situ until the barge is lifted. This is likely to be March 2022 when the site is next fallow.

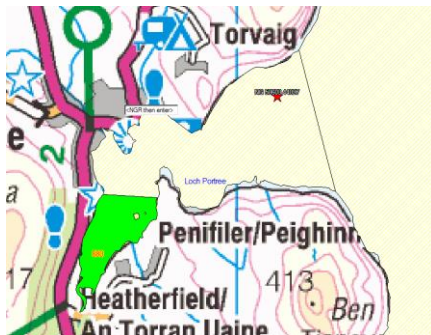

I will let you know if there are any further significant developments. Otherwise, just let me know if you have any further concerns from today's update.

Kind Regards,

Hi 38(1)b. Thanks for your e-mail. While we have no immediate concerns I should be obliged if you could let us know if the situation with the sunken vessel deteriorates or changes.

There is a cockle bed 2.3km (Loch Portree Cockles) from the sunken vessel, so I have sent an e-mail just for info to Highland Council's Environmental health team just in case anything develops.

Kind Regards,
